STRATEC®
WEED LANDSCAPE
FABRIC

A SWIFTEC® GROUP BRAND NAME

Technical Specification

Product Description:

WEED landscaping fabric is designed to prevent weed growth while allowing plants to flourish. It also prevents gravel or bark topping intermixing with the soil. The Landscape Solutions range is designed for smaller builders, landscapers and DIY projects, using technology tried and tested on major construction projects worldwide.

Quality:

The Stratec brand is a new name built on 30 years experience of tried and proven geoproducts for the civil engineering industry. Products are manufactured to extremely high specifications and are fully backed to ISO 9001 standards.

Supply:

Stratec® Landscape products are mostly available for the direct delivery to site or yard via our bulk distribution warehouse.

Installation:

Full installation guidelines are available.

Specification:		
Grade		Weed Material
Raw Material		Polypropylene
Weight EN ISO 986 to EN965	gsm	100
Thickness at 2kPa EN964	mm	0.72
Tensile Strength MD/CD E N10319	N	200/200
Elongation at Break MD/CD E N10319	%	25/25
Static puncture (CBR Test) ENISO 12236	N	900
Water Permeability	l/sqm/s	130
